SUMMARY

Product Designer with 4+ years on SaaS, B2B, mobile, healthcare, and marketplace products with complex workflows. I prototype with AI tools, and a prior career in customer care shapes how I listen.

EXPERIENCE

Product Designer | Freelance — Remote | Jul 2025 – Present

- **TurnBnB** (mobile marketplace, in development): designed the role and permission model for three user types and iOS flows for onboarding, invitations, properties, and subscriptions.
- **Prince Auto Repair:** discovery turned a website brief into a shop-management product; designed its workflows, an interactive prototype, and the live website.

UX Evaluation Specialist | Mercor — Contract | May 2026 – Present

- Evaluated AI-generated web apps for usability, UI quality, and fit with requirements.

Product Designer | Ambitus — Contract | May 2026 – Jun 2026

- Created UI/UX design tasks, specs, and rubrics for evaluating AI systems.

Product Designer (UX/UI) | Haven Health Management — Palm Springs, FL | Jul 2024 – Jun 2025

Full-time, on-site

- Structured treatment, location, insurance, and educational content into responsive templates.
- Created reusable UI components used across pages and brands; handed off to developers.
- Redesigned a treatment-center website and designed an internal campaign dashboard.
- Used Google Analytics and Hotjar to inform design decisions.

UX/UI Designer | PAS Agency — Contract, Remote | Jun 2021 – Jan 2025

- Designed SaaS and B2B apps and responsive web and mobile interfaces for agency clients.
- Built Figma design systems; worked with PMs, stakeholders, and developers.

UX/UI Designer | Immer SaaS features and user flows — Oct 2023 – Apr 2024

UX/UI Designer | Websoft Responsive websites and dashboards — Dec 2022 – Jul 2023
