SUMMARY

Product Designer with 4+ years across SaaS, B2B, mobile, healthcare, and marketplace products. I design complex workflows, dashboards, and internal tools, from discovery to high-fidelity UI, interactive prototypes, and developer handoff, using AI tools to prototype and evaluate products. Six earlier years in customer care taught me to listen.

EXPERIENCE

Product Designer | Freelance — Remote | Jul 2025 – Present

- **TurnBnB** (mobile marketplace, in development): designed the role and permission model for three user types and iOS flows for onboarding, invitations, properties, and subscriptions.
- **Prince Auto Repair:** discovery turned a website brief into a shop-management product; designed workflows from client and vehicle through invoice and payment.
- Built an interactive front-end prototype with AI-assisted tools; designed the live website with online booking.

UX Evaluation Specialist | Mercor — Contract, Remote | May 2026 – Present

- Evaluated AI-generated web apps for usability, UI quality, and requirement fit; documented UX issues and gaps.

Product Designer | Ambitus — Contract, Remote | May 2026 – Jun 2026

- Created UI/UX design tasks for evaluating AI systems: mobile and desktop screens, specs, and rubrics.

Product Designer (UX/UI) | Haven Health Management — Palm Springs, FL | Jul 2024 – Jun 2025

Full-time, on-site with the internal team of a behavioral healthcare organization

- Structured treatment, location, insurance, and educational content into responsive templates.
- Created reusable UI components used across pages and brands, and handed designs off to developers.
- Redesigned a treatment-center website end to end and designed an internal campaign dashboard.
- Used Google Analytics and Hotjar to understand user behavior and inform design decisions.

UX/UI Designer | PAS Agency — Freelance / Contract, Remote | Jun 2021 – Jan 2025

- Designed SaaS and B2B apps and responsive web and mobile interfaces, from wireframes to high-fidelity UI.
- Built Figma component libraries and design systems; worked with PMs, stakeholders, and developers.
